

## RESTRICTED OR PROHIBITED ITEMS

North American International is focused on making your international move as smooth as possible. Part of that process is to make sure that no hazardous or restricted items are included in your shipment. Inclusion of items listed below can represent a danger to others or may impact customs clearance of your shipment at destination.

For further details please check the North American Customs Website for more details on your destination country: <http://www.navl.com/im-immigration-and-customs-information.aspx>

### Hazardous Goods

The Hazardous Goods listed below must not be included in any international shipment:
